The Present of

Research Center for Quantum Software

Collaboration between University of Amsterdam and CWI,
founded in 2015 by Harry Buhrman and Kareljan Schoutens

~100 People: 37 senior researchers, 13 PDs, 37 PhDs, 9 support staff,
56% non-Dutch

IvI: Christian Schaffner, Florian Speelman, John van de Wetering

ILLC: Harry Buhrman, Maris Ozols

IoP: Philippe Bouyer, Philippe Corboz, Arghavan Safavi, Florian Schreck, Kareljan Schoutens

KdVI: Krystal Guo, Ludovico Lami, Michael Walter, Jeroen Zuiddam

HIMS: Wybren Jan Buma

CWI: Jop Briët, Stacey Jeffery, Jonas Helsen, Ronald de Wolf

Selected highlights 2022-2024

Research Center for Quantum Software

- Number of QuSoft-affiliated accepted articles at annual flagship workshop Quantum Information Processing (QIP): 12 (of 114) in 2023, 10 (of 112) in 2024.
- 3-4 PhD graduates per year
- Personal grants: ERCs, VENI, VIDI
- STOC 10-year test of time reward for Ronald de Wolf, June 2022
- Gödel Prize for Ronald de Wolf, May 2023
- QuSoft Turing Chair: Prof Gilles Brassard 2022, Prof Matthias Christandl 2024
- 2023 Breakthrough Prize in Fundamental Physics, Gilles Brassard
- Launch of European Quantum Software Institute (EQSI), Nov 2022
- Yearly QuSoft scientific retreats since 2022, with international guests Gilles Brassard, Robert König, Mario Szegedy

Collaborations with industry

12 April 2023:
UvA Quantum Lab visit by
French President Macron and
the Dutch King

Core activities

Quantum.Amsterdam

Bring the ecosystem together

Outreach

Networking events

Bring companies to Amsterdam

Education and Inspiration

Workshops

Q.A Experience

Q Talent & Learning Center

R&D Collaborations

Set up PhD/PD projects

Liaison to QuantumDelta NL

Quantum Application Lab

Founded 2022, joint initiative of:

UNIVERSITEIT VAN AMSTERDAM

Current focus on:
how can current
quantum computer
help companies?

With industry partners:

European Quantum Software Institute

Launched in 2022, EQSI unites these 6 leading research institutions:

- **Centre for the Mathematics of Quantum Theory** in Copenhagen, DK (Matthias Christandl)
- **Quantum Information Theory at TU Munich**, Germany (Robert König)
- **Paris Centre for Quantum Technologies** (Iordanis Kerenidis)
- **QuSoft**
- **Portuguese Quantum Institute**, Lisbon (Yasser Omar)
- **Center for Quantum Computing Science** in Riga, Latvia (Andris Ambainis)

- initiative for **quantum software research, education and outreach** in Europe
- collaboration with **providers of quantum computing infrastructure** and **industry partners** interested in developing quantum algorithms.

Education

Quantum education efforts on all levels, such as:

- UvA courses on BSc and MSc level
- Quantum Quest (Maris, Michael, Koen, Doutzen)
- [Professional's Guide to Quantum Technology](#) (by Koen Groenland)
- HvA: Quantum Talent & Learning Center

Quantum Education Matrix

Audience ↓	Basic introduction	Technical    			Programming	Business Impact
Bright high-school students	Q.A Experience	[AUAS + LEI] Quantum Experiment Havo	[UvA] Masterclass	Quantum Quest	<div data-bbox="1694 978 1834 1385" style="writing-mode: vertical-rl; transform: rotate(180deg);">Programming workshops ↓</div> <div data-bbox="1847 525 2000 1385" style="writing-mode: vertical-rl; transform: rotate(180deg);">[AUAS] Introduction into Quantum Computing (Coming Q2 2024)</div>	
University: Bachelor		[AUAS] Summer school (2023)	[AUAS] Minor Applied QC [AUAS] Theme Semester Quantum enabling tech.	[AUAS] Internship program		
University: Master	National Quantum Course (coming 14.4-2024)	[UvA] Recommended courses [BSc + MSc]				[UvA] Quantum in Business and Society
Current Workforce		In-house workshops				Workshop General Awareness Quantum Computing ↓
Anyone (general outreach)		Intoduction into Quantum Computing (ABS)	Quantum talks			Masterclass Intro to Quantum Technology ↓ Professional's Guide to Quantum Technology

Research Center for Quantum Software

Research-based programme

- Strongly connected to **active research** in QuSoft, all lecturers are QuSoft members!
- Much of industry is research based as well

Interdisciplinary

Focus on Theoretical Aspects

- **Not** an engineering programme
- Focus on theoretical physics, mathematics, algorithms and programming
- Internships at companies

Industrial Advisory Board

2028: LabQ building

The image is an architectural rendering of a modern building complex. The central focus is the 'LabQ building', which features a prominent glass facade on its lower levels and a wooden slat facade on its upper levels. The building has a multi-story structure with a flat roof that appears to have a green roof or rooftop garden. In the foreground, there is a paved plaza with several people engaged in various activities: some are sitting on the grass, a person is walking a dog, and others are standing and talking. To the left, another building with a diamond-patterned facade is visible. To the right, a taller, more industrial-looking building with a white facade and large windows is partially visible. The sky is a clear blue with some light clouds. The overall scene is bright and sunny, suggesting a pleasant day.

2028: LabQ & Amsterdam Science Park

- Quantum Research, Education and Valorisation under one roof in LabQ
- Co-hosting HPC and quantum computing infrastructure
- EU Quantum Excellence center

Research Center for Quantum Software

Quantum Delta NL

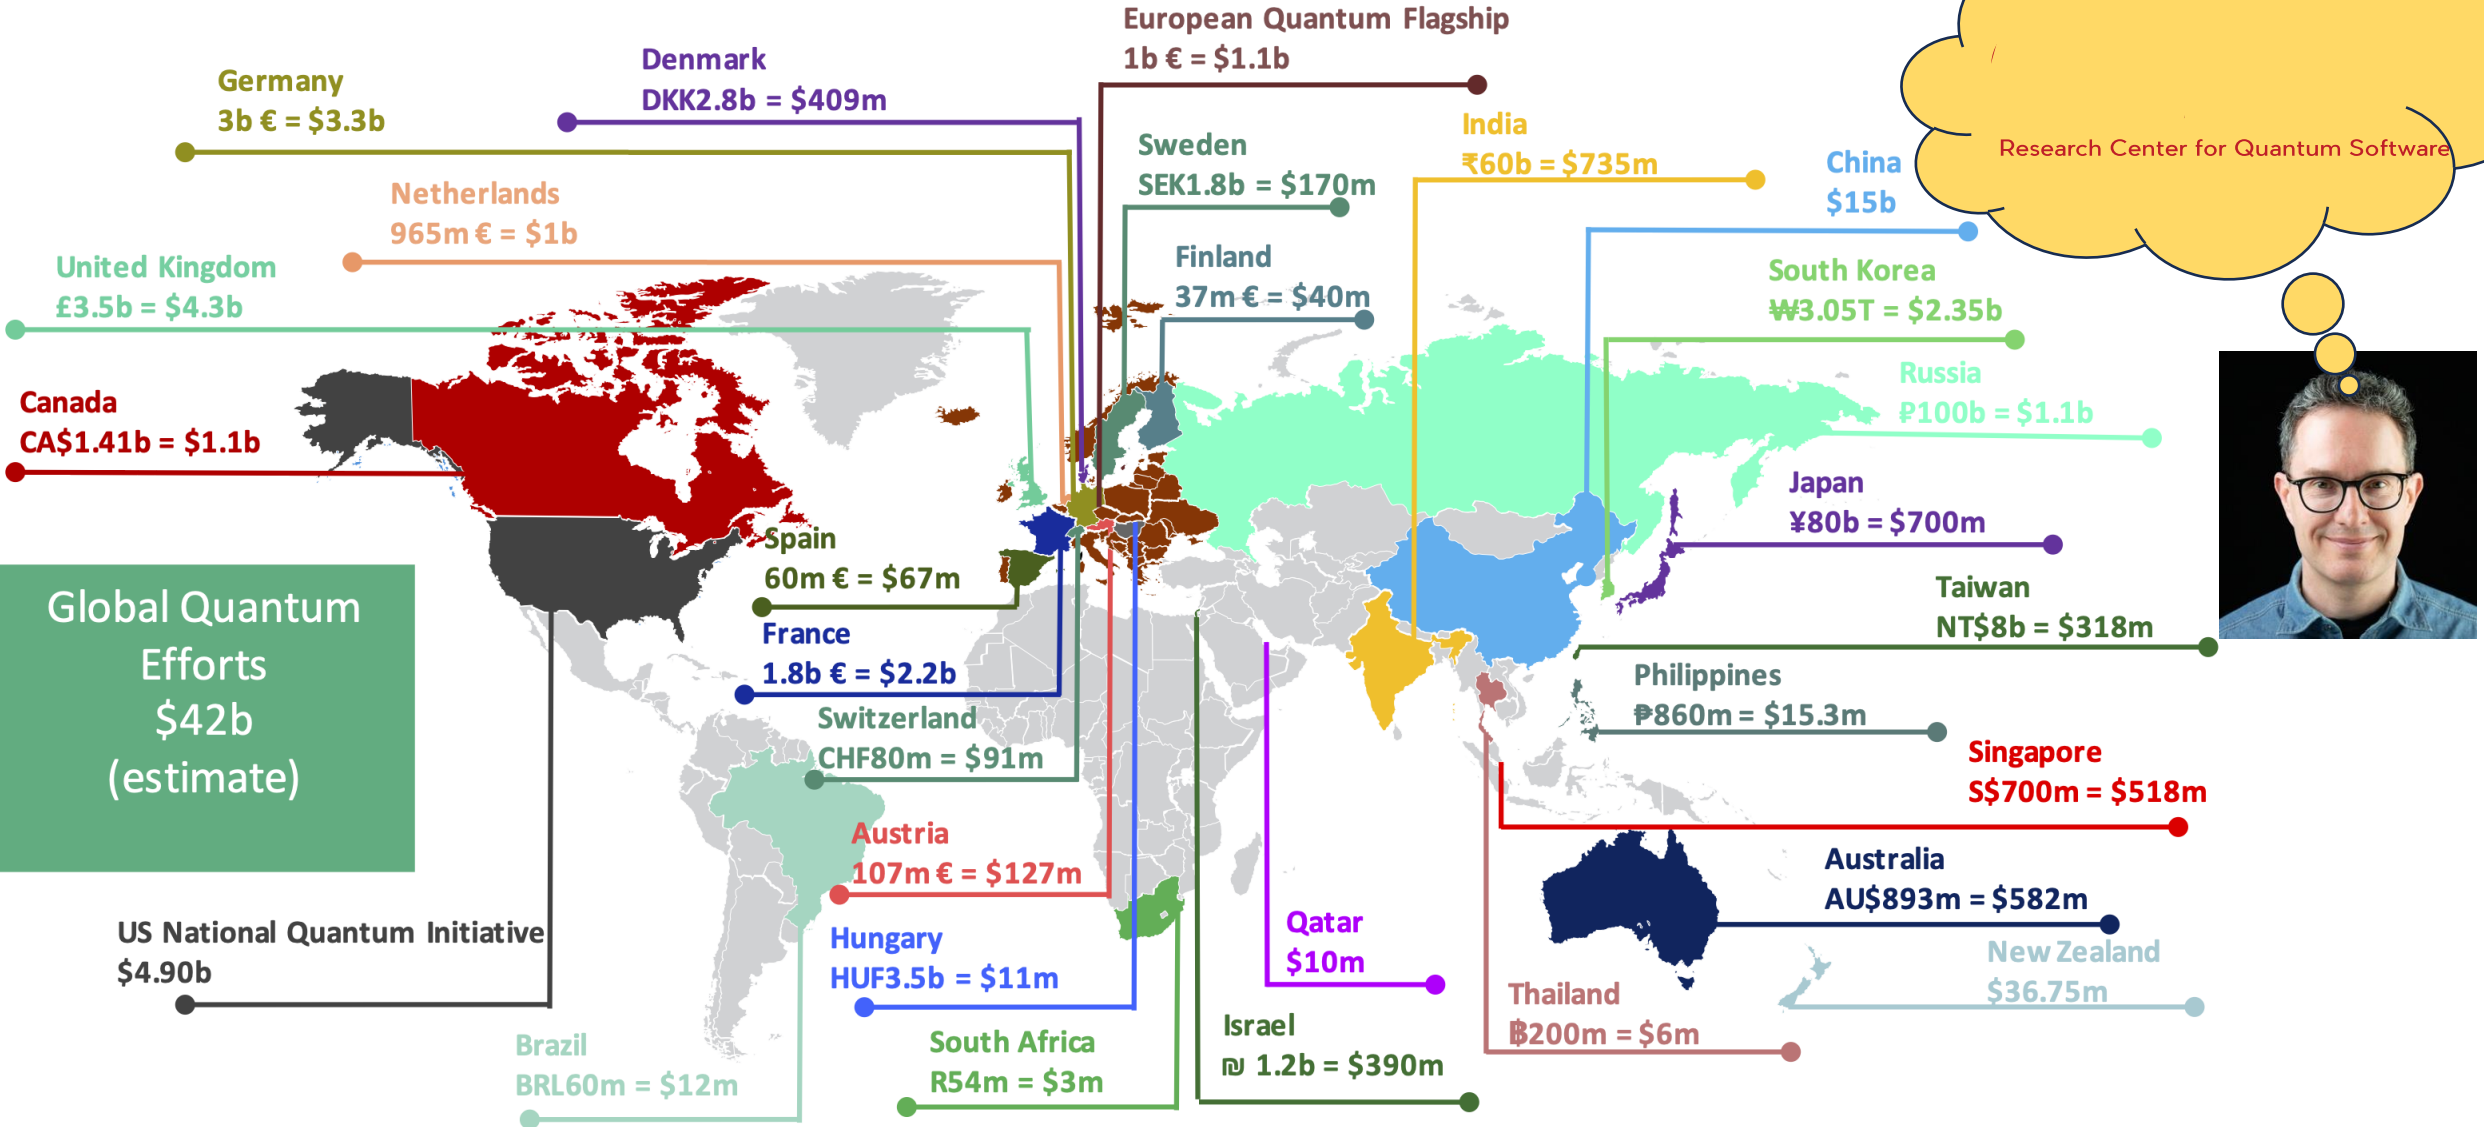

- Organization to manage the 615M€ growth fund investment by Dutch ministry of economic affairs
- Amsterdam is one of the 5 national hubs
- Involved in all CATs and ALs
- Currently half way: starting phase 3, lasting until 2028
